Surplus Aldermen Pose Problem for GC's April Election

Redistricting Puts 4 In 2nd, 3 in 5th and Only One in 1st Ward

A legal question as to whether there should be aldermanic elections in two of Granite City's seven wards next April had developed today along with the possibility that three incumbent aldermen might not be legally able to seek re-election.

City Clerk Homer Pendleton, who said the problem grows out of the city's recent redistricting from eight to seven wards, has asked City Attorney Richard Allen for a legal opinion on the procedure to follow in acceptance of nominating petitions when the city election filing period opens Dec. 22.

In another development in the city election picture, Raymond Willard, former Granite City chief of police, announced he will not be a candidate for mayor in next year's municipal election.

Willard said earlier that he planned to enter the race and had secured petition forms from the clerk's office in preparation for filing as a candidate.

Incumbent Mayor Donald Partney and Third Ward Alderman Van Dee Cruse To seek Mayor's Post

Van Dee Cruse, former Granite City township assessor and alderman and unsuccessful candidate for mayor in the 1968 city election, obtained nominating petition forms yesterday as a candidate for mayor in the 1969 municipal election.

Cruse announced that he intends to enter the mayoral race and will file his petitions when the filing period opens Dec. 23. Cruse therefore will become the third candidate in the mayor's race, necessitating a mayoral primary which, under state statutes, will be held Feb. 11.

Petitions as a candidate for alderman of Granite City Ward Seven were obtained yesterday by Thomas R. Boker, 10 Bermuda lane, former chairman of the Granite City Air Pollution Control Board. Boker is a civilian employee with the Department of the Army Materiel Command at St. Louis.

man Clyde Boyd are announced candidates in the mayor's race.

The question over procedure in the aldermanic race involves Wards Two and Five which already have two aldermen who will serve remaining two-year terms. This imbalance

Free Parking At Meters in Downtown GC

Parking meters in downtown Granite City were taken out of service this week to provide free parking for holiday shoppers.

Mayor Partney announced yesterday that free parking throughout the parking meter area will continue through Saturday, Dec. 28.

The request was made by the downtown merchants to bolster shopping in the central business district during the holiday season, and the city should realize added revenue in its sales tax income to offset the maintenance loss," Mayor Partney said.

He polled the city's 16 aldermen by telephone to gain approval for the suspension of the meter operation. "It was favored by a large majority," Partney added.

The free parking, he explained, is for shoppers. Office workers and store employees are being asked not to park all day on the streets.

"The two meter officers will continue to patrol the downtown district, and they know most of cars owned by persons working in the business district," Partney added.

Madison Votes \$20,000 for Two Traffic Signals

A motor fuel tax appropriation of \$20,000 for traffic controls on McCambridge avenue was approved by the Madison city council at its meeting Tuesday night.

The controls will include traffic signals at the Sixth street intersection and overhead flashing signals at the dangerous Edwardsville road intersection.

Plans for the signals were made following negotiations with the state highway division and a traffic survey completed by the division.

They are to be financed by the city, state and Nameoki township, which had offered to share in the cost, as half of McCambridge avenue is located in the township.

The council also approved municipal requests for MFT funds of \$12,945 to pay for road improvements and \$6854 to pay for sidewalk, curb and gutter maintenance conducted during the summer.

Sergeant Commanded
A letter was received from the Granite City Army Depot commanding police Sgt. Norris to report on the activities of the depot's police force.

The letter was signed by Maj. Stephen R. Taylor, provost marshal.

Requests for alley lights at the rear of 1818 Fourth street and at the rear of 814 Franklin street were approved. The arm of a street light at Harris street and McNair is to be replaced by a large illumination for Harris street.

It was reported that the city's Christmas street decorations were late in arriving because of shipping difficulties but should be up by the weekend.

Salaries for the last half of December are to be paid to all city employees Friday because of the approaching holidays. The early payroll is an annual custom.

The resignation of police patrolman Theodore Skolko to the board of fire and police commissioners was approved by the board.

Silver Star Medal Awards For Lt. Costello, Lt. Stull

First Lt. Paul J. Costello, son of Mr. and Mrs. James T. Costello, 1600 Clark avenue, and Second Lt. William J. Stull, grandson of Mrs. Grace Hecht, 2338 Veterans drive, and son of two former local residents, recently were cited for exceptional valor in action against the enemy and awarded Silver Star Medals, it was learned this week.

Lt. Costello's award cited the officer for conspicuous gallantry in action in rescuing wounded South Vietnamese soldiers from the battlefield, a feat which later inspired the RVN battalion, which he served as adviser, to assault and overrun enemy-held positions.

The action took place July 25-26, with the Silver Star presented to him in special ceremonies last month in Vietnam. It was recently announced by the U. S. Military Assistance Command Headquarters, Vietnam.

Lt. Stull received the Silver Star for distinguishing himself on May 6, while serving as a forward observer on a combined operation during which he exposed his own position to direct artillery fire on the enemy, carried a wounded comrade to safety and was responsible for repelling several attacks by North Vietnamese troops.

The officer, who attended school here, is a son of Mrs. Lois Mitchell of Winchester, La., and William A. Stull, Sr., of Collinsville. Both parents are former Granite City residents.

The citations accompanying Lt. Costello's award read:

2 Architectural Firms to Design New GC Schools

The Granite City school board last night selected returns from its successful bond and tax election Dec. 7 and awarded architectural contracts to two Granite City firms.

The firm of Henry Gabriel and Sylvester Dugleroff will design a new junior high school at Maryville and Nameoki roads and additions at Granite City high school and Coolidge junior high.

The firm of Virgil Dugleroff will be architect for two elementary schools, one at the Nameoki-Maryville site and the other on the Old Alton road in the Norwood subdivision.

Both firms agreed in their contracts to be responsible to the school system for structural and mechanical engineering work performed through sub-contractors.

The contracts showed the \$4,750,000 bond issue carried 2804 to 1575 and a 40-cent boost in the education fund rate that won by 2578 to 1834. Ballots marked on the bond question totaled 4476, with 4409 cast on the education rate issue.

Want Quality Education
Superior J. Davis commented, "This is a most gratifying election. Once again, citizens of this district have demonstrated that they want quality education, and they know that in this day and age the cost of quality education has gone up the same as other costs."

"I am very proud of this community. All individuals and groups who aided the cause of education will be thanked individually."

"I know that everyone who worked in this election must feel a deep satisfaction in this victory. Because of the efforts, the children will continue to receive the best we have to offer."

Board members expressed pleasure at the result and noted "V" for victory symbols in the election.

It was reported that elementary principals of the district have formed an association to upgrade the professionalism of their group.

19,000 at Open Houses
Attendance at open houses during November was announced as 19,000, including 1200 at GCHS.

The board decided to obtain a second anonymous call at 2:15 a.m. from a man who thought the store burglar was in an apartment in the 2700 block of Kirkwood. Police checked the area but the suspect was not there.

Heavy Loss in GS Steel Contracts Due to Strike

Steel castings contracts of a multi-million-dollar status have been on the verge of being withdrawn from General Steel Industries, Inc., because of a steelworkers strike that has shut down the GSI plant in Granite City since Nov. 1, company officials revealed today.

In addition, the company said, new business involving about \$1 million in contracts that were expected to go to General Steel are being given instead to a Japanese firm.

Loss of the firm's present contracts and anticipated new business is due to the strike of the company's 1300 steelworkers—members of Local 1022 of United Steelworkers of America—resulting in the company's inability to meet commitments on negotiated production contracts.

The steelworkers walked out in a dispute over terms of a new three-year contract forced by the layoff of the plant's 700 other non-striking employees and the closing of the GSI plant immediately after the strike began.

Work to Other Firms
Thomas Remington, president of the GSI Castings Division, said the work that is being withdrawn and assigned to other domestic foundries was contracted with General Steel by three of the firm's major customers, who were not identified.

Three sets of patterns produced by one GSI customer for production of outer and inner cylinders, blade rings and nozzle assemblies were returned yesterday under a writ of replevin obtained in court by the customer, Remington said, and the work had been done for fulfillment of the contract order.

He said this contract alone would involve the loss of an estimated \$500,000 in billings. Some preliminary work had been done on this order before the strike began, Remington noted.

Another much larger loss appeared to be under active consideration by another customer to withdraw a contract for production of locomotive trucks, turbine castings, power shovel equipment and armor, Remington said.

Because of the nature of the work, he added, it is impossible to make an estimate of the work requirements and cost, but said it would run into "hundreds of thousands of manhours and several millions of dollars."

Wage losses of the 1300 striking steelworkers under action since Nov. 1, he said, are approaching the \$2 million mark as the strike nears the end of its sixth week.

Based on an average weekly wage of \$150 per man for 1300 striking steelworkers over a two-week period, the loss is \$11 million to \$12 million by the end of this week. On the same basis, wage losses to workers idled by the strike will amount to a total of \$1,800,000 from Nov. 1 through Dec. 14.

Efforts to reach a new contract agreement for the 1300 striking steelworkers are being considered by another customer to withdraw a contract for production of locomotive trucks, turbine castings, power shovel equipment and armor, Remington said.

GC Man, 31, Nabbed in Liquor Store Burglary

Granite City police captured a burglar suspect early Wednesday after he was seen breaking into a liquor store.

Stolen in other crimes this week were three autos, clothing, money and Christmas decorations.

Jimmy Fred Ray, 31, of 2426 Madison avenue, was charged with burglary at about 3 a.m. Wednesday following a break-in and gun fire at the Na-Bar-Hood Liquor store, Nameoki road.

Police received an anonymous call at 2 a.m. from a woman stating she saw a man break a glass window and enter the store. All cars were dispatched to the scene.

Patrolman Richard Woods, who was at Leonard and Buxton avenues at the time, drove with his lights on behind the suspect and onto a parking lot adjacent to the liquor store and saw Ray leave the store with a box in his hands.

Recognizing Ray as a repeat offender, Woods said, "I called down to Jimmy to halt. He threw down the box and started to run. He went between the liquor store and the first house south, while still in the car. I fired two shots as he ran. He stumbled as I fired the second shot."

Search Store, Area
"I then got out of the car and went inside the liquor store. I was joined by Sgt. (Evelyn) Kelly and Officers (Elwyn) Dickey and (Peter) Handelson. We searched the building, but no one else was found. Officer (Ralph) Parmley searched the area with his police dog but nothing was found."

Woods said the box the suspect dropped contained 30 cartons of cigarettes. He added that the area in front of the store was well lighted.

Police received a second anonymous call at 2:15 a.m. from a man who thought the store burglar was in an apartment in the 2700 block of Kirkwood. Police checked the area but the suspect was not there.

GC Man Seriously Hurt In Missouri Accident

Edward Schmidt, 35, of 2533 Lynch avenue, is recovering in Firmin Desloge Hospital, St. Louis, from severe facial and head injuries suffered in an ac-

cident near Hillsboro, Mo., last Friday morning, when Schmidt's car ran off the highway and plunged over an embankment.

The mishap occurred as Schmidt, alone in his car, was driving to Hillsboro to meet friends who were to accompany

him on a hunting trip. According to members of his family, Schmidt swerved his car to avoid hitting a dog that ran in front of him, causing him to lose control of his car.

Schmidt's head apparently went through the windshield as the car rolled down the em-

bankment. A passing motorist took him to the Hillsboro Hospital where 200 sutures were taken in his face and head. He was transferred to the St. Louis Hospital where he has since undergone plastic surgery, his family reported.

Joint Venice-Madison Meeting Is Postponed

A joint meeting of the Madison and Venice city councils scheduled tonight for review of a neighborhood redevelopment program has been postponed because of the illness of Madison Mayor Stephen Maeras.

Dr. John E. Lee, mayor of Venice, said the joint council session will be held at a later date yet to be determined. The development proposal is to be presented to Madison-Venice officials by representatives of the Southwest Illinois Metropolitan Area Planning Commission.

GC Man, 25, Shot at Home, Stories Conflict

John Farless, 25, of 2131 Edison avenue, was shot in the abdomen in the kitchen of his apartment about 3 a.m. Wednesday and was admitted to St. Elizabeth Hospital where a knot caused by the bullet was felt in the right side of the back two inches below the waistline. He told police his 22 caliber gun went off accidentally and told hospital officials that he was cleaning the weapon when it discharged.

A witness, Paul Hornberger, of the same address who shares kitchen facilities with Farless, told police that Farless walked into the kitchen and said he was going to shoot himself. He then heard the shot fired. Hornberger took Farless to the hospital. Police listed the incident as an attempted suicide.

Hospital Blood Bank Cited for Performance

The St. Elizabeth Hospital blood bank has received recognition by the American Association of Blood Banks for another three-year period, it was announced by the association's medical director.

MORE ABOUT Silver Star

The Silver Star won by Lt. Costello reads in part:

"First Lt. Costello distinguished himself by gallantry in action from July 25 to 26, 1968, while serving as senior advisor, 1st Battalion, 50th Regiment, 25th Infantry Division, Army of the Republic of Vietnam."

Helicopter Operation
On that date, the battalion was engaged in a helicopter reconnaissance-in-force operation in Ben Luc District. Upon landing, the unit came under intense automatic weapons and small arms fire from an enemy force estimated at company strength. Dauntless of the withering enemy fire, Lt. Costello moved about the landing zone to position Vietnamese soldiers and direct their fire against known enemy locations.

"Placing himself in the front lines amidst a hail of enemy fire, he then proceeded to direct airstrikes, gunships and artillery against the enemy positions. When it became apparent that the enemy's strength and tactical employment precluded an offensive at the time, Lt. Costello advised his counterpart on an orderly means of withdrawal."

"Prior to the withdrawal, he observed several Vietnamese soldiers lying wounded on the battlefield. With complete disregard for his personal safety, Lt. Costello rescued and effected the aerial evacuation of seven wounded soldiers."

Inspired Attack
"His courageous action so inspired the men of the battalion that they later overran the enemy positions in a pre-dawn assault."

"First Lt. Costello's conspicuous gallantry in action was in keeping with the highest traditions of the United States Army and reflects great credit upon himself and the military service."

Now stationed at 25th Vietnam

MORE ABOUT Talking Letter

he heard the voices of the children.

"From the lists of names in books of servicemen from this area who are overseas, yet the response to the Red Cross talking letter project is not very much," Mrs. Blackburn commented.

"If families realized how the newspaper's 'Yule Mail Call' you know there are hundreds of men appreciate hearing voices from home, I am sure they'd take time out from the busy rush before the holidays to come to the Red Cross office and avail themselves of the free service, so kindly offered," she said.

Office Hours Extended
Less than a dozen families have made recordings for servicemen so far this year. Mrs. Ruby Overbeck, executive director of the Tri-City Red Cross chapter, said today. She announced that the office will remain open for recording sessions this Friday until 8:30 p.m. and on Saturday from 9:30 a.m. until 4 p.m. Records also can be made each weekday from 9:30 to 4 p.m.

No appointment is necessary to record a talking letter, the director said. The chapter provides the recording facilities, an unbreakable disc able to record 15 minutes of conversation and heavy wrapping materials to protect the discs in transit.

Born and reared in Madison, Mrs. Blackburn, the former Shirley Jackson, daughter of John Jackson, is currently in the 1338 Second street, is residing with her young children in the 2100 block of Cleveland Blvd., while her husband is overseas.

Sgt. Blackburn, a career Army man with ten years service, presently is stationed at Long Binh, Vietnam, where he is mess sergeant for the 18th Replacement Co. It is his second tour duty overseas.

Initially, he was assigned to Vietnam in December 1968; came home on leave last Christmas and returned to Vietnam in February. He spent an entire brief leave at home in July.

Bronze Star Winner
Last December, Sgt. Blackburn, a native of Mammoth Springs, Ark., was awarded the Bronze Star Medal for meritorious achievement in combat. He arrived in Vietnam an E-4 and currently holds the Army rating of E-7.

The family previously spent three years in Nuremberg, Germany, where their oldest child, Kenny, five, was born. Lisa, four years, was born at Fort Chaffee, Ark., and the youngest Blackburn—Cindy Lynn, three years—arrived while the family was living at Fort Bliss, Tex.

As the children were preparing to record their voices at the Red Cross office, Kenny, an

emerson school kindergarten pupil, was rehearsing the Pledge of Allegiance under his breath, a reaction of which he was to make for his father. He also was to tell him that he wanted some riding cars and a truck for Christmas. The two little girls were to sing "Jesus Loves Me," a song they had learned in their Sunday school class at the First Baptist Church. Both hoped to get "baby dolls" from Santa Claus. The Red Cross office was busy place Tuesday—an older man came in for a consultation; Mrs. Overbeck was pre-

paring reports for an afternoon meeting of the chapter's governing board of directors; and cases of canned goods and Yuletide decorations contribution by the Girl Scouts were standing by the front door where a large tree awaited the decorations.

Each of the Blackburn children clutched a small Santa Claus memento, as they began to record—"Hello Daddy"—in chorus.

Local Girl Previews 'Friday, the 13th'

Speeding Charge Filed

Allen C. Taylor, 2545 Lynch avenue, was ticketed on a speeding charge at 23rd street and Madison avenue at 12:45 a.m. Wednesday.

—TRY A CLASSIFIED AD—

A preview of "Friday, the 13th" has been experienced by a Granite City high school girl who had a 4:30 p.m. dental appointment, it was learned today.

Her father had to work overtime and was unable to get her at school, so her mother tele-

phoned her at school to call a taxi.

The girl, who prefers to remain anonymous, didn't have any money and walked to her home in the 1500 block of Cottage avenue.

She called a cab from there, and when she went outside, the taxi had a flat tire. The driver assured her it would take only a few minutes to change the wheel.

Completing the task, the driver started up the engine and was about to drive away when a passing motorist shouted, "Your cab's on fire."

The driver and girl jumped out as a fire truck and two police cars arrived. The blaze was quickly extinguished and the driver was able to use his two-way radio to summon another taxi.

The girl finally made it to the

Her dentist was running behind schedule and she had one tooth filled—"painlessly."

Five Demos, 3 Republicans in Senator's Race

A spirited contest for the lone senatorial post of State Senator Paul Simon of Illinois indicated today with a field of five Democratic and three Republican candidates seeking to complete the two-year unexpired term.

Vacancy in the senatorial office of the 53rd District results from Simon's resignation as senator following his election Nov. 5 as Illinois lieutenant governor.

While the filing period for a March 11 primary election ended Monday at the Secretary of State's office in Springfield, candidates still have until noon Saturday to withdraw.

After a Democratic and Republican candidate are chosen by primary balloting March 11, a senator will be elected in a special runoff election April 29.

List of Candidates
Candidates who filed nominating petitions during the Dec. 29 filing period include:

Democrats—Walter T. "Buck" Simmons of Venice, chairman of the Madison County Democratic Central Committee; Harry Briggs, supervisor of Nunda, old township; Robert Ford, assistant supervisor of Wood River township; Patrick Riddleberger, Edwardsville, a history professor at Southern Illinois University—Western campus, and Sam Drenovac, operator of a farm and an associate in the operation of restaurant and service station businesses.

Republicans—David F. Mallett of Troy, president and operator of a Collinsville auto agency; Raymond O. Rogers, mayor of Edwardsville, and Dr. Merle Ottwein, Edwardsville, a veterinarian.

The 43rd senatorial district in which the special primary and runoff election will be conducted embraces the four townships of the Quad-City area—Granite City, Venice, Chouteau and Madison county townships of Alton, Edwardsville, Jarvis, Godfrey, Wood River and Pin Oak. The district includes 144 of the county's 186 precincts.

Simmons, in addition to his post as county Democratic chairman, is an employee at the Venice-owned McKinley bridge and is a state patronage jobholder with the Illinois Highway Department.

Previously Sought Election
Briggs, Ford and Drenovac, were all unsuccessful candidates for nomination as state representative of the 55th District in the state primary election last June 11. Briggs operates a restaurant supply business and Ford employed in the accounting department of the American Oil Co.

Riddleberger has been on the

Rogers has been mayor of Edwardsville for the past seven and a half years and has served two terms as president of the Southwestern Illinois Council of Mayors. He is a foreman at Granite City Steel Co.

Ottwein is a lifelong resident of Madison county and currently is a staff member of the Hawthorne Animal Hospital at Edwardsville.

A member of Alcoholics Anonymous outlined the work of the 400,000-member group in helping fellow members avoid drinking. Founded 35 years ago, it solves the problem immediately for 50% of those who join and eventually for another 25%.

Describing alcoholism as a widespread and deadly disease, he said it is first necessary for an individual to convince himself, or be convinced by friends, that it is a problem. Most who drink are not alcoholics; the difference is that with the latter group, even drink begins an unstoppable pattern.

Rev. Goodloe Love was program chairman. President Will Radman presided and Harry Thebeau was honored on his birthday.

Surplus Adermen

results from the redistricting process in which aldermen from certain wards were transferred into others in an effort to equalize the size of the wards. One ward—Number Eight—was eliminated in the process.

In Ward Two, the regular aldermen are Samuel Whitmer and Edmund Bartosiek. Whitmer has two years yet to serve under the election system of electing half of the council membership every two years.

Four in Ward 2

Through the redistricting, however, Earl Jarrett, alderman of old Ward Seven, and Paul Rutledge, alderman of old Ward Four, were moved in to Ward Two, placing four aldermen in the single ward. Jarrett also has two years of his term remaining, while Rutledge's term expires next year along with that of Bartosiek.

Both Bartosiek and Rutledge have obtained petition forms as aldermen of Ward Two. Pendleton points out that Whitmer and Jarrett already are serving as aldermen in Ward Two and the question therefore arises as to whether the people can elect a fourth alderman and have an organization system that customarily has only two aldermen to each ward.

An almost identical situation exists in Ward Five where the circumstances differ only in the fact that there are now three aldermen in that ward, with only one term expiring next year. Consequently, Ward Five also poses a situation in which there are currently two hold-over aldermen whose terms do not expire next year.

Basarich Seeks Re-Election
Prior to redistricting, aldermen in old Ward Five were Walter Nomm and Steve Basarich. Due to the redistricting changeover, Alderman Charles Moerlin, formerly in old Ward One, was placed in Ward Five. Both Nomm and Moerlin still have two years of their terms to serve. Basarich's term expires next year and he has obtained petitions as a candidate for re-election as alderman of that ward.

Pendleton said the question is synonymous in Wards Two and Five. If elections are held there, he noted, both wards would have three instead of two aldermen.

At the same time, Pendleton pointed out that if the law permits the election of a third alderman in each of the two wards, the city council still will have 16 members, same as it had before the redistricting, because a new alderman will have to be elected in Ward One from which Moerlin was transferred.

Vacancy in Ward 1

After redistricting was completed, Alderman William Dallas was the only alderman remaining in Ward One. This creates a vacancy for a two-year term and will provide for election of an alderman there to serve out that term.

Barron New Business Agent of Bartenders

Melvin "Doc" Barron, 14 Jones Park, Ponton Beach, was elected Monday as the new secretary-treasurer and business representative of Bartenders Local 102. He received 53 votes to 27 for Julius Kuehnle and 20 for Richard Craycraft, and will serve for two years.

Barron will replace Edgar Patrick, who has held the post for the past seven years but was not a candidate for re-election. All other officers were unopposed; among those elected were John Brink, president, and Charles Austria, vice-president.

lens in the city's five other wards, Pendleton said.

Allen said he intended to research a legal opinion for Pendleton and that he does not want to make official comment on the situation until he does so. Unofficially, he said, he believes that the election of a third alderman in the two wards would be permissible under statutes governing redistricting procedure which provide that when redistricting is undertaken, all aldermen serve out their complete terms before any of the offices are phased out.

Mounted Venice Officer Finds Stolen Pay Phone

A pay telephone, its metal casing ripped apart around the coin box, was found along the Mississippi riverfront near the foot of Bremen street in Venice yesterday by Police Patrolman John Kittel. The officer found the phone while searching along the riverbank on his regular beat.

It was the second discovery of theft loot by officers making a mounted search of lakes and river shorelines for possible signs of O. C. Ward of Venice who has been missing from his home since Nov. 30. While Kittel and Patrolman Joseph Meehan were searching the shoreline of Horseshoe Lake near Bend road last week, they found a new portable television set, believed to be one of 74 such sets stolen from a railroad shipment in Eagle Park.

Income of Smith Corp. Shows 19% Gain Over 1967

Per share 1968 income of A. O. Smith Corp., a diversified manufacturer, should reach \$4.60, a figure somewhat higher than earlier anticipated and an increase of 19% over last year, Lloyd B. Smith, the firm's chairman and chief executive officer, announced this week.

Smith, addressing a group of securities dealers in Milwaukee, said 1968 will be the fourth consecutive year of increased earnings. Per share income last year amounted to \$3.87 on net earnings of \$9.6 million.

Auto frame business played a major role, it was noted. The company produces frames at its Granite City plant.

Smith estimated sales for the year ending Dec. 31 at a record \$370 million, an increase of 12% over last year's \$330 million. The previous high for the corporation was \$358.4 million, reached in 1965.

"Per share income for the fourth quarter of this year will be about \$1.38, as against \$1.55 for the comparable period of last year," he said. "Profit before taxes will be improved in the fourth quarter as a result of a general improvement in operations, but the surtax and year-end adjustments will cause the difference in the after-tax comparison. We look forward to 1969 as the fifth consecutive year of profit improvement."

The Milwaukee-based firm supplies products for the automotive, petroleum, agricultural, water heating, power metal, reinforced plastics and electrical and electronics industries.

Smith said most of the company's 12 operating divisions played a role in the sharp increase in sales and earnings.

"The outlook for future sales of motors and valves in international markets is especially encouraging," he said. "In many foreign countries, petroleum is an important source of tax revenues, and requirements for its metering are accelerating."

A new line of our meters and related valves will be applied to the process control market of the chemical industry, which is advancing between 12% and 15% annually."

Frame Growth Expected
Smith said the company's automotive and truck frame business also will continue to grow in the years ahead. He said that greatest emphasis is and will be placed on the firm's agricultural, consumer and industrial markets to establish improved balance in A. O. Smith's overall business.

He noted that the truck frame business accounted for 47% of the firm's sales volume in 1967, but forecast that other areas will contribute to increasing higher percentages of total company sales in the future.

The auto frame market has grown at an average of 5% yearly since 1963, he said. During that same period, the auto industry expanded at a rate of 2.1%.

50% Lead Over Competitor
"Our company has not only grown with the market, but retains a lead of 50% over its nearest direct competitor in the passenger frame business, and a lead of 40% over its nearest competitor of truck frames," he said.

At the same time, Smith said, the Consumer Products division, which is broadening its product line and exploring use of new materials and new concepts in water heating, has been growing rapidly in the industry as a whole. A. O. Smith is a pioneer in the development of glass-lined water heaters.

Smith noted progressive changes in management "which will help us improve profitability while achieving sound and orderly growth."

He added, "In our management group, we have a desirable balance of men with extensive company service, plus younger executives with varying experience in other fields and with other firms."

Auto Fire Causes \$175 Damage, Furnace Blows

They also were summoned at 11:15 a.m. Wednesday to the home of Michael Jones, 2957 Washington avenue, where a furnace blew up. There was no damage.

FREDMAN BROS. FURN. CO.

A Sale With a Reason... Not Just An Excuse! WHAT IS A BARGAIN?

You, the homemaker, are constantly besieged with advertisements of merchandise called bargains at prices reduced from much higher "list prices." Many of the values are authentic; some, possibly, are not.

However, no one can offer a legitimate bargain unless they have a legitimate reason for doing so. Fredman Bros. has such a reason for offering values far beyond the usual: The last six months have been among the hardest in our history. Business has been good; it has been so good that we have reached our profit quota for the year. Most of anything else we make now would be paid out in taxes. Therefore, we've slashed prices throughout the store with only 3 things in mind:

1. Show our appreciation to our customers and friends in the Quad-City area by offering them an opportunity to buy all their Christmas gifts at "After Christmas" prices.

2. Reduce the overstock now instead of waiting 'til after Christmas.

3. Open up 200 new accounts before the end of the year. Therefore, all merchandise will be marked down as much as 30% to 60%, just as if it were after Christmas, but you can still have it delivered in time to give as a Christmas gift.

Boys' Soccer Teams 500 Honor Top YMCA

The largest crowd in seven
years was present at the YMCA
gymnasium Monday evening to
join in honoring winning teams
of the "Y" Soccer Association
tournament which ended Dec.
8. A January 1967 GCHS gradu-
ate, he bowled 181, 199 and
286 for a 648 series boosted to
742 with handicap.

The trophy presentation
night was attended by more
than 400 people, who witnessed
15 trophies being presented to
honored teams and 123 individ-
ual players in the midwest and
its still growing. It was noted
that another 10 to 12 teams are
expected to participate in the
program this spring. Thirty-
five boys' teams in the 6-to-13
age range competed this fall.
Mendoza said, "our associa-
tion has gotten better and bet-
ter mainly because of the co-
operation of the managers and
coaches. It is also the only
program that trains its own re-
ferees through playing in the
leagues."

The director added, "I hope
that soon we can get back to
more personal attention to the
younger soccer players. It is
my hope to spend a lot of
time with them this coming
season and try to give them
training in fundamentals."

"It isn't a problem to find
boys to fill the teams. It is

SIU-SW Soccer Team Is Rated Best in Midwest

Records set by the SIU-SW
soccer team this year may
stand for a long time. Coach
Bob Guelker can't help grinning
as he adds up the impressive
honors that have come to his
team, which is only in its sec-
ond year of intercollegiate com-
petition.

These honors include:
An undefeated season. The
Cougars began competing at
the club team level in 1967 and
ended their first season with a
2-0 record. This year, they won
ten games in a full season
Ranking by the Midwest Col-

legiate Soccer Association as
the most outstanding team in
the college division. The asso-
ciation includes 46 schools in
six states. The Cougars are the
only team in the association
with a perfect record in 1968
competition. St. Louis Univer-
sity, long a soccer power,
ranked second in the associa-
tion with a 9-0-1 record.

All Records Smashed
The undefeated season wiped
out all individual and team re-
cords from the first year of com-
petition.

John Carezza led Cougar
scoring with 15 goals and 11
assists for the season. He also
led the team in shooting with
42 shots. Jim Stranz, goalie,
scored four of SIU-SW's five
shutouts during the season.

SIU-SW scored 48 goals dur-
ing the year while allowing only
seven for its combined oppo-
nents. Most goals in a single
game were scored against
Grenville, defeated 10-0.

What's ahead for next year?
More of the same, Guelker is
hoping. He will lose only four
reserves through graduation.
And, after a year of experience
like this one, the Cougars
should be even tougher.

Guelker is busy now sched-
uling for next season and hopes
to be able to add soccer powers
such as Indiana University and
Akron University to the oppo-
nent list.

"We found out this year that
we could play a high caliber
game. Now are anxious to
see how we can compete
against some of the stronger
soccer teams," Guelker says.

ADMIRING SOCCER TROPHIES presented to members of the YMCA Soc-
cer Association Monday evening are (left to right) President Alan Gasparovic;
the main speaker, Walter Giesler; and Director Ruben Mendoza.

1st Venice Win a 55-54 Thriller

Venice high Red Devil basketball team won for the first time in three games Thursday evening at Livingston, 55-54, coming back from a 40-38 deficit entering the last quarter.

The host team won the first period 13-7 and Venice led 23-22 at the half.

Harold Gontenman scored a two-point goal to give the team the victory with two seconds left in the game. He totaled eight points.

Pessor Gray led the team with 17, followed by Cedric Gardner with 14, Howard Johnson 11 and Ronald Coleman, five points.

Soccer Team Tied 2-2 By Riverview

After trailing at the half and then scoring two quick goals, the GCHS Warrior soccer team saw victory slip away here Tuesday. Riverview Gardens scored with a minute left for a 2-2 final score.

Warrior Coach Tom Wyrostek said, "In the first half we looked bad. There was no teamwork, we didn't pass, we made bad kicks and we didn't charge the ball."

But in the second half nearly all of the shortcomings disappeared.

Bobby Galvin scored both goals, feeding the ball to the inside and then receiving passes as he broke into the open.

The GCHS record is now three wins, a loss and two ties.

Man's Body Found Believed Missing Venice Resident

The body of a man believed to be that of O. C. Ward, a Venice resident who has been missing since Nov. 30, was found floating this morning along the shoreline of Horseshoe Lake near the Nichols Net & Twine Co. on Bond road.

The body was found about 10:30 a.m. by Forrest Haskamp, who lives on Sandy Lane in the neighborhood of the site where the body was discovered. The body was that of an elderly man, Ward was said to be about 67 years old.

Identification had not been established early this afternoon. Ward, of 1228 Logan street, Venice, last was seen at 5:30 p.m. Saturday, Nov. 30, when he went to a liquor store where he cashed a \$131 check and purchased a bottle of liquor.

The following morning a deputy sheriff who is acquainted with the Ward family called Ward's wife, Mrs. Priscilla Ward, and informed her that he had seen Ward's car on Bond road just off Route 203. Mrs. Ward went to the scene and drove the car home.

Several days later Venice police found the charred remains of Ward's wallet, still containing identification cards, at the site of a small fire in a weed patch near Lake alley.

Suspecting foul play, police have been searching the shoreline of Horseshoe Lake and the Venice riverfront on horseback during the past week.

The "white elephant" was presented to Mrs. Sylvia Simur, chaplain, who closed the meeting with prayer. Mrs. Charlotte Darnall, president, was in charge.

Take It Easy
It's much better to be late down here than early up there—so drive carefully and live.

Set Pattern
It's possible to improve human nature a little, but it has never been radically changed.

Surviving are her husband, Cletis W. Snider's one daughter, Mrs. Kenneth (June) Wender of St. Louis; a sister, Mrs. Elsie Luchka of Glen Carbon; one brother, William Bowen of Edwardsville; and six grandchildren.

Funeral arrangements are given in today's obituary column.

Park Roller Skating Program to Resume

The Granite City park district roller skating program will resume Tuesday at Stoppok's roller rink, 1900 Cleveland blvd., after being halted because of a fire.

Skating will start at 4 p.m. and last until 5:30 p.m. All those who were attending the session, as well as others interested in skating during the

special Tuesday program, are invited.

The skating is free to park residents who have skates. Skates can be rented for 25 cents.

with prizes and gifts planned during the day and coffee and cake served.

YMCA Soccer Association athletic director, he is a former Olympics soccer star.

The 1250-foot store will be stocked primarily with team equipment, uniforms and balls for all sports, but it will be sold on an individual basis as well.

"I will specialize in team sports like baseball, basketball, soccer, football, tennis, etc.," Mendoza said.

Coach Bob Page said, "Our press was working effectively for a while in the first half, in

Trojans Open League Play With 63-61 Win

The Trojan basketball team won its first Midwestern Conference game of the young season Tuesday evening by beating the visiting Dupu Tigers 63-61.

Quarter scores were 21-11, 31-27 and 48-36 as Dupu came on strongly in both the second and fourth periods.

Coach Bob Page said, "Our press was working effectively for a while in the first half, in

the second half we tried to change our offense a bit and it didn't work."

However, I'm happy with the victory. The last time out we got nervous and gave the game away; this time, the boys thought better and made better plays."

Mis found itself in trouble as the Tigers applied a full-court press late in the game and the Trojans failed to adjust quickly.

Page was especially pleased with Jim Scott, who played his last game of the season after being sidelined with an injured ankle.

"He didn't move as well as he normally would, but did well in breaking fast with the rest of the team. He still has to get more game endurance but that will come."

John Harper, who has been recovering from a football injury, also saw some action and will be strong enough to play here Friday against Triad in the Trojans' second conference game.

Scoring for the Trojans were Eddie Hilton 15, Oscar Hagler 14, Alonzo Watts nine, Dave Hutchison eight, John Ervin and Scott six each, John Harper and Howard Harper two each and Tom Noel, one.

Near the end of the game, Hagler missed a pair of free throws but Hilton grabbed the rebound and scored a field goal to give MHS a three-point lead.

Dupo again cut the lead to a point and intentionally fouled Hilton in an effort to regain possession. Hilton hit two char-lotte, but stepped over a line too soon on the second shot. This might have given the Trojans a chance to tie but there was not enough time left for them to score.

Warrior Soph Five Gains Two Victories

GCHS cage sophomores won over Assumption 76-42 here Monday after romping to a 19-5 first quarter lead.

Scoring were Mike DeRuntz 23, John Ireland 12, Eric Stuber nine, Don Harris eight, Bob Swan six, Mike Wilson and Gary Stutch four, Rich Moore three and George Odom, Dennis Kuneman and Lester Pittman, one.

On Tuesday, the Warrior Sophs beat visiting Belleville 40-25 after leading 35-18 at the half.

Stuber scored 18, DeRuntz 14, Wilson and Swan 11 each, Harris six and Stutch two.

The young Warriors will be at home tonight at 6:30 against Collinsville.

Prather Wrestlers Defeated By Roxana

The Prather wrestling team lost its third meet without a win here Monday to Roxana 38-18.

Winning on pins were Rick Madrid 5-25, Don Patterson (138) 3-33 and Bob Morgan (145) 1-47. Norris Egbert (133) won 3-0.

Losses were Curt Holland (103) 13-9, Dave Raub (112) 3-42, Howard Eberston (120) 1-47, Dean Vaughn (127) 4-11, Don May (154) 3-39, Chester Walton (165) 3-40, Tom Layman (180) 2-43 and Woody Lovv chef (heavyweight) in 27 seconds.

Dr. Stanley Kimball, assistant professor of history at Southern Illinois University-Southwestern campus, was the speaker Monday evening at the Christmas dinner party of the Kiwanis Club, held at the Rose Bowl.

Dixon Mounds Closed

Dickson Mounds Park, including the picnic grounds and the Ewelland prehistoric village site buildings, will be closed to visitors until about March 1, 1968. Winter weather and road maintenance problems make this decision necessary, according to Charles R. DeBusk, deputy director.

The museum office will be open Monday through Friday, 8:30 a.m. to 4:30 p.m. for persons having official business with the museum or with the contractors working on a new museum.

Approximately 40,000 persons visited the Ewelland Site of the three prehistoric houses during the first part of 1966 after two permanent buildings replaced two temporary shelters over the site.

Chancellor Sees Bright Future for SIU-SW 5 Released in Rail Car Probe

The Southwestern campus of Southern Illinois University has a "bright promise" exceeding that of many universities and not only attracting more students but that they are attending for greater periods of time, predicted, Chancellor John S. Dr. Rendleman said.

Master degree courses are being offered in 20 subject areas, and the Illinois Board of Higher Education has commented favorably on doctoral proposals, the gathering of Chamber of Commerce members, wives and guests was told.

Dental, Medical Plans Establishment of a dental program is planned for 1970, and discussions took place this week with a Nobel Prize winner on the possibility of locating a major new medical research facility here, Dr. Rendleman reported; engineering courses also are under study.

Harold R. Fischer, liaison committee chairman and a member of the SIU board of trustees, presided, and the gathering included Chamber President Clifton E. Blankenship. Arrangements were handled by Dr. Cameron Meredith, assistant to SIU Vice-President Ralph Ruffner.

String Quartet Concert The Lincoln String Quartet of the university faculty entertained with three selections and also accompanied a group of young violinists. The eight grade school children are music pupils of members of the Lincoln Quartet.

Asserting that SIU-SW has been shown to have filled a vacuum, the chancellor said many of those in its student body would not have continued their education if SIU-SW did not exist.

In expanding its enrollment from 8500 to 10,400 this fall, compared to a year ago, the

local campus showed a 24% gain in full-time equivalent enrollment, indicating that it is not only attracting more students but that they are attending for greater periods of time, Dr. Rendleman said.

Public support and attendance for the outdoor concert series to assure that it will be repeated in later years. He said the beauty of the bluff-area campus is expected to add much to the residents' enjoyment of the music.

Released Monday by federal authorities were Robert Culbert, 20, of 2589 Spaulding avenue; Gary King, 21, of 4734 Lake drive; Thomas Delaney, 20, of 2693 Washington avenue; Ronnie D. Hicks, 19, of 2200 East 20th street, and William D. Wright, 20, of 1109 Douglas street, Venice. No charges have been filed.

The speaker stressed that a university must go far beyond teaching of 18-22-year-olds, including research, graduate study and concern for the well being of its area. He said former Shurtleff College classrooms at Alton provide satisfactory facilities, and added that the university hopes to aid in resolving problems that hamper life in East St. Louis.

Dr. Rendleman said that while unrest on various campuses cannot be entirely separated from the "big picture" of U. S. life in the late 1960s, the present and potential value of university programs and the need to continue them require that somewhat narrower picture be kept in mind.

He noted that the symphony had driven a hard bargain but showed a clear preference for SIU-SW compared to other possible locations in the St. Louis and Kansas City areas.

Such cultural ties between Missouri and Illinois in the could spark many other innovations in the Illinois metropolitan area and could indirectly lead to a relaxation of St. Louis monetary policies believed by some to have been a factor in limiting certain types of growth and development in the area east of the Mississippi River, he said.

Dr. Rendleman urged full

Winning GCNS Band Students Announced

Winning band students in a season ticket-selling contest were announced and plans to honor the group were made during a meeting of 34 members of the Granite City High School Band Parents Association Tuesday evening.

The recently concluded competition involved 13 teams, each composed of ten band students, who sold season tickets for the 1968-69 concert series which opens with the annual Christmas program this evening.

The winning team, captained by Eric Mills, included band students, Terry Aubuchon, Jack Jenkins, Larry Martin, Sharon Bone, Linda Brown, Laura Harsh, Patti Kawula, Stephanie

Miller, Gretchen Rea and Elaine Taratjio.

Louis E. Meek, director, said names of the winning students, \$250, will be inscribed on a special award plaque.

Teams headed by Mark Twittemeyer and Dennis Meyer were second and third.

At Tuesday's meeting, Herbert B. Parker, association president, appointed Paul Seibold chairman of an entertainment committee, which will supervise arrangements for a party in February to honor the contest winners.

Plans for tonight's concert were discussed and the session concluded with a social hour and refreshments served by Mrs. Kawula and Mrs. Rudolph Sporic.

Wiring Short Circuits At Fredman Store

Firemen were called twice to the Fredman Brothers Furniture store, Niedringhaus and Delmar avenues, first at 4:30 p.m. Monday when a short circuit in the wiring caused fuses in the fuse box to burn. A brief second call came at 5:55 p.m.

Three pieces of fire-fighting equipment were on the scene for an hour during congested traffic. No damage was reported.

Another short circuit in an electric stove caused \$50 damage to the home of Jerry Milton, 2222 Delmar avenue at 7 p.m. Monday. It was out in 20 minutes.

A gas heater in a vacant house at 2017 Lee avenue, owned by Sam Rosch, ignited a wall at 6:25 a.m. Tuesday, but the fire was quickly spotted and the loss was limited to \$30. Rosch had been working at the house and left the heater turned on to prevent freezing in the pipes. Firemen were at the scene 20 minutes.

Firemen also were called to a weed fire at the drainage ditch at Dale and Wilson avenues at 12:25 p.m. Monday. It was caused by burning rubbish. There was no damage.

SIBA Plans to Expand Program of Education

Broadening of the education program conducted by the Southern Illinois Builders Association is to be undertaken during 1969, it was announced this week by the SIBA president, Michael P. Keeley Jr. of East St. Louis. The association has its offices in Belleville.

The fields in which construction education is to be expanded include the apprenticeship program, the high school guidance counselors program and the construction technology program to be offered at junior colleges and four-year colleges. During the SIBA recent annual meeting, Keeley said the construction industry "has a bright outlook for 1969 in both highway and industrial construction."

He asked all contractors to place more emphasis on safety next year. SIBA members re-elected Keeley to serve in 1969 and also re-elected John Bauer of Belleville as vice-president. The organization secretary is Thomas H. Reese Jr. of Caseyville.

Amsted Sees Hope for Rise in Rail Order

Amsted Industries this week reported that its backlog of unfilled orders on Sept. 30, the end of its fiscal year, amounted to \$33,000,000 up from \$26,000,000 a year earlier. The firm operates the American Steel Foundries plant in Granite City.

Joseph B. Lanterman, president, in the company's annual report to stockholders, listed record sales of \$233,300,000, of which industrial products accounted for \$151,200,000 or 65%.

Railroad product sales were \$82,100,000 or 35% of the total. Products sold to construction and building industries totaled \$75,300,000, up 25% from a year ago, while product sales for general industrial and other uses were \$75,900,000, a 44% increase from fiscal 1967. Lanterman said these figures

creases were primarily the result of three major acquisitions since December 1966. Litho-Strip Corp., Chicago, MacWhyr Co., Kenosha, Wis., and Burgess-Norton Manufacturing Co., Geneva, Ill.

Sales of railroad products for replacement or repair were \$32,000,000, down 3% from a year earlier (\$33,700,000), while sales of railroad products for use on new freight cars were \$49,500,000, a 35% decrease (\$76,300,000) due to the low level of new freight car buying.

Looking at current business trends, Lanterman noted, "Many of Amsted's product lines are achieving satisfactory sales levels, but orders for new freight car components continue to reflect the low level of new freight car buying by the railroads."

However, he said there are indications that an improvement in demand for these components may occur in the near future.

He added, "At present, it appears that earnings in the first half of fiscal 1968 will be below a year ago, but it is expected that income in the last half of the fiscal year will exceed that of 1967."

Lanterman told stockholders that Amsted continues to be in a strong financial position. Net current assets, or working capital, amounted to \$49,071,000 on Sept. 30.

Current assets totaled \$78,000,000, including cash of \$3,074,000. Current liabilities were \$28,995,000. Long-term debt amounted to \$13,457,000.

Amsted previously announced its sales and earnings for fiscal 1968. Sales for the year were \$233,300,000, up from \$223,224,000 in 1967. Net income amounted to \$9,755,000 or \$3.55 per share, compared to \$13,027,000 or \$4.77 per share in 1967.

The decrease in earnings was attributed to the decline in railroad product sales and to provision for the 10% federal income tax surcharge which was effective Jan. 1, 1968.

The sales decline in railroad products was more than offset by an increase in sales in other product lines, with lower profit margins because of lower value added.

SP/4 Leonard Cuvar Awarded Bronze Star

Mr. and Mrs. Andy Cuvar, 3815 Pontoon road, recently learned that their son, Army Specialist Four Leonard M. Cuvar, 19, has been awarded the Bronze Star Medal for meritorious service in action against the enemy in the vicinity of Saigon, Vietnam.

Details of the incident for which the medal was awarded have not yet been received by the family, but the action is believed to have occurred in November.

The family, however, this week received two other medals won by the local serviceman during his Vietnam tour—the Purple Heart and the Army Commendation Medal.

SP/4 Cuvar was awarded the Purple Heart for wounds suffered Sept. 8 while in action near the 17th parallel, close to the De-Militarized Zone. He was hospitalized in Vietnam with grenade fragmentation wounds to the left shoulder.

The citation accompanying the Army Commendation Medal reads in part:

"Specialist Four Leonard Cuvar for distinguishing himself by meritorious achievement in ground operations in the Republic of Vietnam during the period April 1 to Aug. 31, 1968.

"His outstanding performance during the cited period was a significant contribution in support of the United States contingency effort in the Republic of Vietnam. He performed in a highly professional and efficient manner, accom-

plishing his assigned mission with exceptional results.

"He set an example that inspired his associates to strive for maximum achievement. His initiative, sound judgment, loyalty and will to succeed have been in the best tradition of the military service and reflected great credit upon himself, his unit and the United States Army."

A paratrooper with the 1st Battalion, 508th Infantry, 82nd Airborne Division, SP/4 Cuvar was assigned to Vietnam early this year. A younger brother, Daniel, is serving aboard the

aircraft carrier USS Forrestal, presently on Mediterranean Sea duty.

A third brother, James Cuvar, 22, returned home from Vietnam 12 months ago and received his discharge from the Armed Forces in May. He is presently employed at Union Division-Miles Laboratories.

The names and addresses of both servicemen appear in today's Yule Mail Call list, published elsewhere in the newspaper.

A meeting of air pollution control enforcement agencies is expected to be called by federal authorities for the Illinois-Missouri metropolitan area within the next month to discuss creation of a Federal Air Quality Region, the Granite City Air Pollution Control Board was informed at a brief meeting Monday night.

Venice Bridge Traffic Down to 8922 Per Day

Traffic over the Venice-owned McKinley bridge averaged 8922 vehicles per day during November, a decline of about 500 per day below average traffic prior to the opening of state-built, toll-free spans in the area, according to a report by Henry McMullen, bridge manager.

McMullen said bridge traffic during November totaled 267,694 vehicles, or an average of 8922. Mayor John E. Lee pointed out that this is about 300 vehicles per day less than used to travel across the bridge before the new Chain of Rocks bridge carrying Interstate Route 270 was opened north of McKinley bridge, and the new Poplar street bridge was opened in East St. Louis, south of the Venice span.

Two years ago daily average traffic numbered more than 14,000 vehicles per day. Further reductions in traffic have been noted during the past two months since higher tolls became effective Oct. 1.

Traffic across the bridge in November included 63,797 vehicles the first week, 62,800 the second week, 62,435 the third week, 60,883 in the fourth week and 18,369 during the last two days.

to include the Illinois counties of Madison, St. Clair and Monroe, along with the St. Louis metropolitan area, but it may be extended to include other counties adjoining the Illinois district, Bieniecki said.

The board Monday night accepted the resignation of Board Member Dr. George Wilkins, who said in a letter that he was resigning due to the press of

other duties. The Granite City board is made up of nine members appointed by Mayor Partney.

Two air samplers have been installed, one at Lake school and another at the main fire station, the board was informed. Three more are expected to be in operation in about a week.

Prof. Erwin Hoelscher, technical secretary and consultant, told the board that work is still incomplete on an application for a federal grant from the U.S. Department of Health, Education and Welfare. He said federal aid will be sought to employ full-time staff members. Hoelscher said additional help also is needed in completing an annual report to be submitted to the city council.

County Public Aid Costs Up to \$757,409

Madison county public aid costs increased again in September to a total outlay of \$757,409 for 9463 recipients, with almost half of the expenditure paid out for Aid to Dependent Children, a report by the Illinois Department of Public Aid showed today.

While the September total was up \$54,800 over the \$702,609 cost for August, it was an increase of \$113,321 over the \$644,088 in public aid payments in Madison county during July. Of the total, approximately \$190,000 went to aid clients of the Quad-City area who customarily receive about 25% of

the total county public aid expenditure.

The number of recipients in September was an increase of 152 over the 9311 clients on the August rolls, and a jump of 357 aid patrons over the July rolls of 8944.

Bulk of Payments
Bulk of the September payments went primarily to clients in two classes of public aid—Old Age Assistance and Aid to Dependent Children. September payments for Old Age Assistance amounted to \$245,712 for 1381 recipients, compared to \$238,442 for 1377 recipients in August and \$233,008 for 1391 clients in July.

Payments to Madison county recipients of Aid to Dependent Children amounted to \$346,812 in September for 5244 persons receiving Aid, a substantial increase over the \$298,320 paid to 5585 recipients in August. In July, ADC payments totaled \$278,850 for 6779 recipients. These figures reflect an increase of 145 persons placed on ADC rolls during the three month July through September period.

Disability pension payments for September totaled \$141,674 for 914 recipients, compared to \$120,173 for 884 clients during August.

September's total cost for general assistance in Madison county amounted to \$20,166 for 1205 persons, down almost 50% below August payments of \$42,502 for 1146 persons.

Blind Aid Cost
Payments for blind assistance in September totaled \$3045 for 38 persons. August payments in this category were \$3172 for 39 persons.

At the state level, increases generally in costs of ADC and Old Age Assistance more than offset decreases in the other aid categories. Statewide aid expenditures in September were \$40,578,588, compared to \$35,650,019 in August and \$30,941,811 for September 1967.

Harold O. Swank, director of the Illinois Department of Public Aid, said the 1968 caseload was 500,261 in September, compared to 455,637 in August, and was 49,133 above the September 1967 total of 451,128 persons.

The Benevolent Blind Christmas program committee, with headquarters at 1028 North 15th street, East St. Louis, also is announcing gifts, toys and food for Christmas dinners will be taken to persons in rest homes and hospitals Dec. 21 to 24. New Requirements For Driver's Licenses

Both the social security number and zip code number will be required by law to be shown on all Illinois drivers license applications beginning Jan. 1. Secretary of State Paul Powell has reminded Illinois drivers.

Failure to include this information will make it necessary to return the application, resulting in inconvenience and delay for the applicant.

The requirement includes teenagers applying for instruction permits as well as adults applying for their first Illinois licenses or renewal of their current license.

The law was amended by the last session of the General Assembly to require the social security number in order to enable Illinois to comply with Federal government requirements dealing with drivers' records, Mr. Powell said.

New Book on Hamlet Published by Professor

"It was two years in production, but it's finally off the press," says Mrs. Marion Ansel Taylor, English professor at Southern Illinois University-Southern campus.

She was speaking of her book, "A New Look at the Old Sources of Hamlet," which was released in October. Mrs. Taylor signed a contract almost two years ago with Mouton Co., The Hague, Holland, for publication of the book, part of a series called "Studies in English Literature."

Writing is her hobby and having her work published isn't new to Mrs. Taylor. Many of her books, plays, short stories and popular articles have appeared in print. Her biography is included in The Author's and Writer's Who's Who published by Burke's Peerage, Ltd., London, and The Dictionary of International Biography, also published in London.

Drug Abuse Dwindles On Carbondale Campus

The abuse of narcotics was discussed in an open forum recently at Southern Illinois University's Carbondale campus.

SIU security police officers, Chief Thomas Leffler and Capt. Carl Kirk, told students they would rather educate drug abusers than send them to jail.

Leffler said drug abuse is dwindling on the campus.

He said his office prefers to treat drug abuse cases within the university family, sending young offenders to the campus health service or to a counselor for help. He said county officials cooperate with his office in this approach.

Capt. Carl Kirk, a police expert on narcotics abuse, said marijuana technically is not a narcotic but is nevertheless covered by federal law. He added that it would be very difficult to change the current narcotics law, because it is part of an international treaty.

Kirk said there is research under way on animals with chromosomes similar to man's, and that this research may show marijuana to be more dangerous than it is now thought to be.

Dr. Raymond J. Vincent, assistant professor in health education, said he thought laws covering marijuana probably will be changed to lower the penalties. He said many narcotics have valid medical uses but problems arise when drugs are abused.

\$2100 Collected By Area Youths, Attend Alsac Fete

By LESLIE HEADRIK
What event took place recently concerning 17,000 teenagers and a line of great stars? Any teen who went to it knows it was the 1968 ALSAC show.

The show, held at the arena, was to thank all who collected for St. Jude Children's Research Hospital during October.

It was announced that more than \$27,000 was collected, and money was still coming in. Granite City marchers reached a goal of \$2100 for the fund. All who performed for the four-hour event volunteered their own time. The entertainers included The Buckinghams, B. J. Thomas, The Five Americans and Sam The Sham.

Everyone who attended the show, including the stars, agreed that it couldn't have been done without the teens. But also a special "twist" goes out to all the people who helped, and those who contributed. All that can be said is "thank you."

Question:

What can you get 19,000 copies of for \$1.00?

A not-so-funny thing happened on the way to Christmas last year. We ran out of Accutron® timepieces. So the customers who came in at the last minute had to settle for a conventional watch. Some didn't. And we know why. All conventional watches—wind, self-wind and electric—keep time by the gyrations of a balance wheel. But Accutron is not a watch. It's a precise timepiece that keeps time through the vibrations of a tiny tuning fork. The tuning fork splits each second into 360 equal parts. And keeps time so accurate, we guarantee monthly accuracy within 60 seconds—which averages out to about 2 seconds a day. Every second counts during December days. Because what happened last year could happen again. So run in before we run out.

ISU Reports Quality Of Freshman Class

Illinois State University at Normal has a freshman class of 1968 with a mark of quality with fully 57%, a total of 1588 students ranking in the top quarter of their high school graduating classes. Of that number 98 were valedictorians or salutatorians.

Data reported by Dr. Wilbur Venable, dean of admissions and records, shows that 2534 of the 2788 new freshmen were in the first or second quarters of their high school classes.

By the same token, academic attrition at Illinois State continues at a very low rate. In the freshman class of 1967, only 8.7% of the total was dropped because of poor scholarship at the end of the academic year.

In a supplementary report, the Admissions office said that 3419 of the total number of freshmen at ISU are on scholarships of varying types or receiving grants or loans, or are involved in the work-study program.

While 12,390 students are from 99 of Illinois' 102 counties, there are 702 from 48 different states and 101 from 33 countries or territories.

Tuition Grants Up to \$1200 Now Available Here

Applications for up to \$1200 in grant assistance (non-repayable financial aid) for college study during 1968-70 to more than 125 colleges and universities in Illinois are available now through the high schools and colleges in Illinois.

The grant program, administered by the Illinois State Scholarship Commission, provides aid on a non-competitive basis. Applicants are not required to take tests nor have a minimum class rank.

The applicants, who must be citizens and Illinois residents, qualify for grants based on their financial need at the Illinois college, public or private, of their choice.

Financial need is determined through a standard financial need analysis procedure which is applied to the information submitted by the applicant and his parents.

Grants are available for full-time, undergraduate study in amounts up to \$1200. The grant, however, may be used only for tuition and mandatory fees. Grant applications can be obtained from all high schools, approved colleges and universities in Illinois, or by writing directly to the Illinois State Scholarship Commission, Box 607, Deerfield, Ill., 60015. They are available in the Granite City high school guidance office, room 105.

SIU Gets \$7500 Grant For Archaeology Survey

A \$7500 grant from the National Park Service has been approved for Southern Illinois University's Museum to finance continued archaeological field work in the lower Kaskaskia river basin to be flooded by the projected canalization project.

A museum field crew worked last summer at the Marty Coolidge site near New Athens. The 1968 summer explorations will be at the same site, according to Phil C. Weigand, curator of North American Archaeology. Carl Kutruff, who directed the field work last summer, will again serve as supervisor, Weigand said.

Drug Abuse in the Ivy League

"The Poisoned Ivy" by William Surin, New York, McGraw-Hill, Inc., 1968, 224 pages.

Reviewed by Clark Davis, member of the SIU Department of Higher Education faculty. (Review published in the Daily Egyptian, SIU Department of Journalism, Carbondale.)

"The Poisoned Ivy" makes a little contribution to one's understanding of drug abuse or of student life in the universities. It is a collection of articles, some written by sports writers in the twenties (or before) as "Ivy League."

The book of features was prepared for a publication date of May 29, 1968.

Perhaps Surin had to meet such a demanding deadline that he threw together odds and ends about drug abuse in order to satisfy a market. The book is a collection of articles, some written by sports writers in the twenties (or before) as "Ivy League."

Certainly, all parents with or without previous collegiate experience desire to have the latest word, from whatever source, on use in their inevitable "before you go away to college, I have a few things to say" lecture or monologue.

The chapter headings are as eye-catching as the title.

The sub-title of the jacket—"A sobering report on the growing use of drugs in America's elite eastern colleges—the Ivy League and their seven sister schools,"—is a pretense to chapter titles which are not necessarily related to the content:

1. "New Desire Under the Elms."
2. "Yale: Pot, Police and Paranoia."
3. "The Grass Is Greener at Harvard."
4. "Columbia, Penn and Brown: Pot to Burn."

Outstanding Football Players Accorded All-Conference Honors

The annual Press-Record Southwestern Conference and Midwestern Conference football teams have been announced once again.

Readers may wish to note that these are the only athletic all-star gridiron selections for the two conferences. They are based on exactly balanced voting by all of the head coaches—men who have been in action and who know what to look for in terms of athletic skill and effectiveness.

If there was ever any doubt about the objectivity of the Press-Record all-conference teams, it surely was dispelled long ago. On occasion, a local school is shut out entirely; no Granite City players won berths on the current Southwestern squad.

We salute the four Alton, three Belleville, West, three East St. Louis and two Wood River high school players honored in the Southwestern squad. The four Alton, four Dupon, one Roxana and four Bethalto gridders named to the first team in the Midwestern Conference. The many second-team and honorable mention award recipients also made important contributions to the success of their teams this fall.

Eliminate Primary for Delegates To State Constitutional Convention

The joint bill by House Speaker Smith (R) and State Rep. Katz (D) eliminating a primary election for Illinois constitutional convention delegates could save the state a huge amount of money and ought to be passed.

It is true that it could open the door to extra candidates hoping to split the vote for leading contenders.

But with two convention delegates to be chosen in each senatorial district, it still seems acceptable to name those obtaining the largest vote totals. And we cannot regard a potentially long ballot list as a serious problem, since the delegates probably will be the only issue voters must decide in the fall 1969 election preceding the 1970 convention.

Joint Madison-Venice Council Session On Development Plans

Tonight's joint meeting of Venice and Madison city council members to review neighborhood redevelopment proposals is a constructive step.

Many of the issues and problems are similar, and the presence of both legislative bodies could prove a most beneficial business combination in seeking solutions.

Madison and Venice have much in common. They are in the same township, and might find that governmental business could be handled more expeditiously if they held frequent joint discussions.

Eventually, officials might wish to consider formation of a single city and a single school district in Venice township.

How to Make a Non-Appointment

One of the new cabinet appointees and his boss used humor to reveal, while GOP governors were meeting in his state, that the California lieutenant governor had accepted an honor of joining the national administration. They did not want to miss the chance, but had promised no formal cabinet announcements to avoid upstaging the governor's own newsmaking. So Mr. Nixon introduced "Secretary Finch" and the latter described his long association with the president-elect by saying, "It's hard on the Finch and there's darned little Welfare, but it's an Education."

Billion-Dollar Biennial Yield From a 2% Illinois Income Tax

(Taxpayers' Federation of Illinois)

Most constitutional lawyers feel that the Illinois General Assembly could adopt a flat-rate income tax under the present Illinois Constitution.

It is the further opinion of many experts that the prospect of earning the income could be deducted under such a flat-rate tax.

If the General Assembly were to adopt a flat-rate income tax in the future under the present constitution, it could make such a tax an additional revenue-raising proposition.

If the tax were to become an additional tax, figures given below show what revenue would be realized.

A 1% flat-rate income tax, it is estimated, would produce approximately \$250 million a year in revenue. Of this year's total, \$205 million would come from individual income and \$45 million from corporate income.

The breakdown reflects income, which according to federal returns amounted to \$204 billion in taxable personal income and \$45 billion in taxable corporate income.

At 2%, the tax yield would be \$410 million on individuals and \$90 million on corporations for a \$500 million total.

A 3% flat-rate income tax in Illinois would produce \$615 million from individuals and \$135 million from corporations for an aggregate of \$750 million.

In a biennial period, this means that the state would have \$500 million more in revenue for governmental expenditures at a 1% rate, \$1 billion at a 2% rate during the two years, and \$1.5 billion during the biennium at a 3% rate.

Taxpayers throughout the state think that, if and when an income tax is ever passed by the Illinois General Assembly, the revenue from it should be partly in lieu of some of the taxes that are presently being paid.

If the tax were to start out as an additional tax, with no rate limitation in the present (1870) Illinois Constitution, it is feared that the tax would become bigger and bigger as pressure increased for more state spending. Use of income tax in lieu of other taxes.)

INFLATION DANGEROUS: UNIONS NOT AT FAULT

To the Editor:

"It's more accurate to say that rising consumer prices cause rising wage demands than it is to state the reverse."

That's the conclusion of a Wall Street Journal editorial on the causes of inflation.

The editorial is headed, "The Union's Fault?" It blames the rise in prices on the actions of the business community.

And the business newspaper cites its own survey of wage and price increases in organized and unorganized industries, which, it noted, showed that "many of the largest price increases have come in areas where workers are weakly organized or are not organized at all. A number of price declines have occurred areas that are firmly unionized."

The Wall Street Journal then intimated "a clear and present danger." But it warns that "it won't be diminished one whit by efforts to put the blame solely on the unions."

PLEASSED BY TEEN DANCE

To the Editor:

After spending a Saturday evening with a wonderful group of teenagers, I think parents should go to this place called the Beneath Society and see what a most courteous group of kids it is.

It is operated by Bill Stearns and his wife, Mrs. Stearns. Both attend local schools and, after graduation, joined the Marines. While in Vietnam, they dreamed of a way to provide our kids with good, clean entertainment.

On Saturday I saw this dream coming true. So I think them to be a very good group. We are, thank you kids have a nice place to go.

It is operated by Bill Stearns and his wife, Mrs. Stearns. Both attend local schools and, after graduation, joined the Marines. While in Vietnam, they dreamed of a way to provide our kids with good, clean entertainment.

I was told that my parents were welcome, and I was very happy to see how welcome we were.

HOLIDAY IN VIETNAM A TIME FOR RECOLLECTION

(The following letter is from a Nyack, N.Y., sergeant who is serving as an advisor to the Chaplain (Major) James E. Townsend in the 368th Combat Support Group at Da Nang, Vietnam. The chaplain's wife and four children reside in the 2300 block of State Street. It was written prior to Thanksgiving.)

To the Editor:

Thanksgiving is rapidly approaching and around the country mothers are planning their menus of turkey, dressing and cranberry pie, while father anxiously await the chance to relax, enjoy a wonderful meal and watch their favorite football game on color television.

For most it will be a day of visiting with friends and relatives and for laughter and the aroma of a well planned dinner.

For a few, it will be just another day in a seemingly endless year. They will not hear the ring of laughter or smell the pumpkin pie—only the distant sound of gunfire and the acrid smell of smoke.

They will not share the joys of visiting with family and loved ones, or their favorite football game. Instead, they will clutch the letters from their wives and hold back the surge of tears, and spend the lonely night watching the horizon for signs of movement.

For me, this is a day when I am among those spending this Thanksgiving in this way. I am not alone, but I am a rifleman, not a making for my country, but because it is here that I can truly appreciate the sacrifices which are so often taken for granted.

For me, and for others like me, Thanksgiving will be a time for joy and laughter, but a time to reflect upon the small things which are so easily overlooked in our hurried lives.

It will be a time to appreciate and give thanks for all the small sacrifices made by our countrymen and parents, the chores of keeping our homes and cooking our meals. It will be a time to remember the comfort they afforded us in times of stress and the loving words that often changed a frown to laughter.

It will be a time to remember the summer picnics and cookouts among groups having diverse interests leading to agreement on common goals and policies.

LIQUOR, TOBACCO V.S. GENERAL WELFARE

To the Editor:

We ask each reader—What would you think of the farmer to whose sheep the wolves came, who gave his entire time to binding up the wounds of his countrymen, but did nothing to stop the ravages of the wolves?

That is the attitude and practice of our government and many of our people in regard to the "liquor world." How ridiculous is this attitude?

The preamble to the Constitution says that the constitution was being adopted for the general welfare of the people. Where is the man who can say that licensing of liquor traffic, production of tobacco products, and gambling promote the general welfare? Surely these are not promoting the general welfare, and therefore violate the constitution.

We are proud of our schools and churches and other worthy institutions. But we are not proud of the effort and expense if we saturate our young people with liquor, or before with alcohol, nicotine and other narcotics? Will we ever wake up and put out these enemies of our civilization?

We sometimes meet with the statement, "Liquor doesn't bother me, I don't drink." But liquor bothers everybody.

Suppose your neighbor doesn't keep his fences in repair, and his cows get into your cornfield? That concern you? Definitely, liquor gets into your "cornfield" and your "cows" may be your children. You pay taxes to police it. It preys on your pocketbook.

If all people would accept the principles of the kingdom of Jesus Christ and live thereby, we would have an almost perfect society.

New Flammable Toy Law in Effect

(Tri-City Christmas Bar Associations)

Dreaming of a "safe" Christmas? Then you can be more confident than ever that your dreams will come true.

Last year, the Illinois state legislature passed a law known as the Flammable Toys and Toys Act, which sets limits on the flammability of certain toys, dolls and fabrics.

Since the law was not effective until Jan. 1, 1968, it is being subjected to its first broad test this Christmas shopping season.

Among other restrictions, no toys or dolls may be manufactured for sale or brought into this state for sale if they are highly flammable, as measured by standards specified in the new legislation.

The law states that toys and dolls are deemed to be dangerous in the hands of children "if such toy or doll burns with a self-sustained flame for more than 1/10 of an inch per second rate" when subjected to the test prescribed.

Tests also are provided in the law for fabrics, wearing apparel, bedding and doll accessories to determine whether they are dangerous to persons wearing or using them.

Textiles are classified as subject to "normal flammability"

Crackdown On Railroad Freight Thefts Meeting With Success

Crime seems to run in patterns, and the current fad involves looting freight cars on railroad sidings of appliances and other goods valued in the thousands and tens of thousands of dollars.

Thanks to alert efforts by railroad security agents and Venice-Madison area police, such thefts are being made more difficult and arrests are occurring. Trials and sentences warranted punishment should follow promptly.

The resignation of a Madison patrolman indicted for possession of property allegedly stolen from such a shipment provides added warning to prospective law violators. Train trucks and their contents are "off limits" wherever parked and whether or not guards are visible.

U.S. Private Efforts Essential Part of Boosting World Food Supply

(Last of Three Articles on an American Assembly Study of Ways to Overcome World Hunger.)

Strong incentives should be established and maintained in hungry nations to accelerate the adoption by farmers of the techniques which will increase production.

These incentives include price guarantees and subsidies to encourage the use of improved seeds, fertilizers and insecticides.

Supply of critical goods and services by local and other industry also is vital to intensification of agricultural production. It is vital to increase U. S. private foreign investment and the efforts of private, non-profit organizations to transfer capital, skill and know-how.

The government is urged to seek arrangements by which U. S. industry can invest, use fully and safely, wherever needed.

The United States government should provide more incentives for export activities and investments through such policies as risk insurance, tax incentives and encouraging foreign government controls on more favorable business climates.

Investments made by U. S. corporations in less-developed countries in agricultural development should be exempt from foreign government controls on capital export and repatriation of earnings.

There must be closer cooperation between governments and agencies; private agencies need to be brought very early into planning and feasibility studies.

The U. S. should press for international arrangements to insure that the oceans, outside resources, territorial waters, are available for the use and benefit of all mankind.

We acknowledge the importance of marine products as a source of protein and we urge continued and accelerated research on economic feasibility and consumer acceptance.

It should be emphasized,

Taxes and the Father Of the Bride

(Internal Revenue Service)

Q. My wife and I support our daughter, who is a senior in college. If she gets married before the end of this year, will we lose our exemption for her?

A. You will if she files a joint return with her husband.

However, if she files a separate return or if she has no income and does not file jointly with her husband, you may claim an exemption for her if she otherwise qualifies as your dependent. In that case, you, not her husband, get the exemption.

Q. I've been taking depreciation on my dairy herd. How do I deduct several cows that froze to death last winter?

A. Claim a casualty loss for this undepreciated value of this livestock, less the value of any salvage. If your loss was covered by insurance, you might have a gain rather than a loss report, depending on the amount of your insurance reimbursement.

Check the Farmer's Tax Guide, Publication 223, for Details.

A free copy may be obtained from your local IRS office or from the County Extension Agent.

Q. I was audited and had to pay more tax on my 1966 return. I paid it and now I get another bill for the same amount. What should I do?

A. Return the bill along with a copy of your canceled check or money order. Frequently, IRS receives payments that cannot be identified and they might have happened in your case.

Another possibility is that your payment was received too late in our processing cycle to make the necessary adjustment in the billing notices.

A good practice to follow, when paying a tax bill, is to put your Social Security number on the check or money order and return the notice with your payment.

Southwestern Football All-Stars Are Headed By Champion Alton

An impossible dream? Yes, but a very interesting one.

Football coaches sometimes dream how it would be to have all the best players in their region going to their high school and reporting for workouts under their direction—the biggest, fastest, smartest, most agile and most skilled gridirers available.

Problems of teaching and execution of plays would evaporate, and success would be virtually assured. The trophies and awards would accumulate at a record pace.

It never quite happens, but the dream is a pleasant one from the coaches' standpoint.

11th Annual Dream Team
And a "dream team" does develop through the varsity head coaches' post-season recollections and voting. An example is the eleventh annual Press-Record all-Southwestern Conference eleven, announced today.

Twelve players actually were chosen for top honors, due to a

tie in balloting for the end positions.

A second team also was chosen and is rated as capable of providing formidable opposition if paired against the first-string selections. Other athletes named in the voting were accorded honorable mention.

The coaches selected four athletes from the Alton Red Birds, who won first place for the 1968 season was a 5-0-1 conference record, having been tied by Belleville West.

3 Flyers, 3 Maroons
There are three all-stars from second-place East St. Louis, 5-1-0, conqueror of Belleville West but beaten by Alton.

And three were named from Belleville West, third-place squad with its 4-1-1 mark.

Rounding out the all-conference team are two members of the strong Wood River squad, which placed fourth with a 3-3 season record and was regarded as of championship caliber but

not the other three contenders fielded such powerhouses.

Collinsville, 2-4 for the year, placed two on the second team. Edwardsville, 1-5, was represented on the second squad by one player.

And last-place Granite City high school, 0-6, placed Guard Tim Wallace on the second all-conference team. Warriors Dave Melzer, end, Jim Jones, halfback, and Jim Greenwald, fullback, were among the honorable mention recipients, listed elsewhere on this page.

Voting Procedure

Votes for a player indicate that one or more of the conference coaches considered him to be first or second best at his position among players from the opposing schools.

Each coach selected a first team and second team, excluding only the members of his own team. Two points were given for a first-team rating

and one point for a second-team selection.

Participating grid coaches were Jim Morrison of Granite City, Yankus of Alton, Fred Cameron of East St. Louis, Bob Samples of Belleville West, Wayne Williams of Wood River, and Frank Pilot of Collinsville, and Paul Fuchs of Edwardsville.

Unanimous selections (12 points) were Guard Charles Mellor of Wood River and Halfback Gerry Wilson of Alton. Mellor received honorable mention a year ago.

Three Juniors Named

There were no first-team repeaters from last year, when co-champions Alton and Belleville West dominated the all-senior team. Alton placed five, Belleville three, East St. Louis two and Collinsville one player in 1967.

The 12 new selections include nine seniors—Mellor, Wilson, Ends, Bill Colclasure of Wood River, Gary Hagen of Alton and

Gerald Hayes of East St. Louis, Tackle Mark Clark of Belleville West, Guard Mike Lewis of East St. Louis, Center Tim Yinger of Alton and Quarterback Mike Jeffries of Alton.

Juniors on the 1968 all-conference team are Tackle Paul Adamson of Belleville West, Halfback Rich Caravia of Belleville West and Fullback Roderick Fisher of East St. Louis.

Reasons for the selections are as follows:

ENDS—Gerald Hayes, 205-pound East St. Louis senior. Scored six touchdowns, caught 16 passes for over 500 yards and has received some all-state recognition. Longest TD a 57-yard play against Belleville West to give East St. Louis a muddy Thanksgiving Day victory and second place in the conference. "Best downfield blocker in my coaching career," Cameron comments. "Exceptional when receiving the ball in heavy traffic. Tremendous sound causes

problems for enemy defense."

Gary Hagen, 210, Alton senior. Three-year letterman, caught 24 passes for 476 yards as a senior. Only member of his team to play both offense and defense.

Averaged eight tackles and six assists a game.

Bill Colclasure, 190, Wood River senior. Played offense and defense. Caught 18 passes for 366 yards and scored four TD's. "We usually turned to him when there was a crucial play."

TACKLES—Mark Clark, 205, Belleville West senior. Runs 50-yard dash in six seconds, fast for his weight. "Finest offensive blocker in the history of this school," Samples believes. Co-captain.

Paul Adamson, 205, Belleville West junior. Only a tenth of a second slower than Clark. Made 96 tackles, including 16 against Wood River. Blocked two punts. Averaged 13 solo tackles a game.

Wood River senior. Always served as leading blocker for ball carrier.

Also rated as one of the best linebackers in the conference on defense. "Terrific competitive spirit," his coach reports. "When we had our backs to the wall, he always managed to come through."

Mike Lewis, 175, East St. Louis senior. Starters for two years. Originally a defensive back but moved to the offensive line this year because of quickness and blocking ability. "Excellent technique. Valuable straight ahead and as a pulling guard. Leadership, character, determination, physical and mental ability."

CENTER—Tim Yinger, 185, Alton senior. Able blocker, quick, moves well. Efficiency charts kept by his team rated him 89%, an unusually high level.

QUARTERBACK—Mike Jeffries, 215, Alton senior. Completed 54 of 98 passes for the best

percentage in the conference. Went to the air for 886 yards and 14 TD passes. Kicked 24 points after touchdowns. Ran 48 times for 400 yards and nine TD's.

HALFBACKS—Gerry Wilson, 155, Alton senior. Carried the ball 88 times for a sparkling 876 yards. Made 29 touchdowns. Caught 16 passes for 207 yards and caught three TD passes. Averaged 23 yards on punt returns, including 67-yard runback against St. Louis University high school.

Rich Caravia, 175, Belleville West junior. Carried 137 times for 776 yards, an average of slightly under five yards. Caught four passes for 30 yards. Threw one TD pass and scored seven TD's.

FULLBACK—Roderick Fisher, 204, East St. Louis junior. Highly rated by the coaches for his effectiveness, earning the nickname of "Bull." Has scored 60 points and gained 900 yards during his varsity career.

Hospitalized GC Serviceman In Today's Yule Mail List

A Granite City soldier, wounded in action Nov. 25 who is now a patient at the 106th General Hospital at Yokohama, Japan, and a Madison paratrooper initially reported missing in action, but later found seriously wounded at the same hospital just one year ago, are among the Quid-City servicemen whose names and addresses appear in today's Yule Mail Call list.

Individuals, churches and organizations are invited to submit the addresses of local servicemen or women to the Yule Mail Call pre-Christmas service. It is hoped that readers will clip out the addresses, adding the names to their mailing lists at Christmas time, or writing to the military personnel after the holidays.

Wounded in action two weeks ago today while a member of the Seventh Cavalry, First Air Cavalry Division, Pfc John F. Sabo Jr., 22, presently is hospitalized at the 106th General Hospital at Yokohama, Japan, where the Granite City still is listed seriously ill, according to his parents, Mr. and Mrs. John F. Sabo sr., 2768 Madison avenue.

Early Thanksgiving Day, the serviceman informed his parents by telephone that he had undergone surgery Nov. 25, after suffering a gunshot wound to the head in combat. He was

Dakota Veteran
A Madison serviceman reported missing in action in the fierce fighting for Hill 875 at Dak To, Vietnam, on Nov. 20, 1967, an action which claimed the lives of three local men, all members of the same outfit, recently re-enlisted for a further three years duty with the Army.

Specialist Fourth Class Perry E. Ramsey, son of Mr. and Mrs. Wald D. Ramsey, 16474 Market street, Madison, was a member of the 503rd Infantry, 173rd Airborne Brigade, at the time of the Dak To incident. Currently, he is stationed with the Sixth E.T.C. School Brigade at Redstone Arsenal in Alabama.

Still bothered by the effects of a knee wound which may require further surgery, the soldier re-enlisted for an additional three years' service in June, it was learned.

SP/4 Ramsey's family initially were told their son was missing at Dak To, however, they learned several days later that he had been quickly evacuated to the 106th General Hospital in Japan with multiple fragmentation wounds to both legs, back, hips and right arm and second and third degree burns to both legs.

The paratrooper spent the next five months at Brooke General Hospital in Texas; later he was assigned to Fort Bragg, N. C., and since Sept. 5, he has been stationed at Redstone Arsenal.

20th Birthday Soon
Specialist Four Ramsey will observe his 20th birthday on Dec. 21.

He holds the Purple Heart; Vietnamese Service Medal; Senior Parachute Wings; Combat Infantryman's Badge; Vietnamese Campaign Medal; and the National Defense Medal. He also received a Certificate of Honor from Venice-Madison American Legion Post 307.

Those submitting the names of servicemen or women to Yule Mail Call are asked to include name, rank, serial number, and full address, including APO and FPO when applicable. The area of service will appear in parenthesis following the address when the information is known.

Details should be written on a postal card or slip of paper and brought or mailed to the Press-Record office, 1815 Delmar avenue.

Yule Mail Call (Clip and Save)

Quid-City servicemen and women stationed around the world, whose names and addresses are being published in each issue of the Press-Record as a special pre-Christmas public service. It is suggested that readers clip out and retain the lists as they appear. Local residents are invited to include the servicemen on their Christmas mailing list and send greeting cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

Sgt. Reinhardt Home
On Leave From Germany

Army Sgt. Michael Reinhardt, 22, son of Mr. and Mrs. Milton G. Reinhardt, No. 1 Bermuda lane, arrived home this week from Ft. Bragg, Germany, where he has been stationed the past 21 months.

The serviceman will report Jan. 19 at Fort Dix, N. J., for assignment to Vietnam. He expects to serve in the area of Saigon, northwest of Saigon.

Sgt. Reinhardt entered the service 27 months ago and was transferred to Germany in February 1967.

A younger brother, SP/4 Richard C. Reinhardt, 21, returned from Vietnam in May after serving there 12 months with a reconnaissance patrol team. He is presently stationed in the U. S.

Assessor Barton Hurts
Arm on Door Spring

Granite City Township Assessor James Barton was released from St. Elizabeth Hospital on Monday after undergoing emergency surgery on Sunday for a severe cut to his right forearm.

Barton, who was on the job Tuesday, said he was tightening a spring on an overhead garage door when the wrench slipped, and spun, striking his arm. "I was using it that last turn when the wrench slipped, and I'll bet it was making 1000 revolutions a minute," the assessor said.

The assessor said he was working on the door at the used car lot he leases at B. E. Moody, 18th street and Madison avenue.

Joseph J. Schroeder, 4205 Breckenridge lane, was charged with speeding at 1000 Pontoon road at 12:15 a.m. Tuesday.

Lower Rates for U. S.-Vietnam Telephone Calls

Families here with relatives stationed in Vietnam were advised today to plan now if they wish to talk with them during the approaching holiday season.

Roger Ward, unit manager for Southwestern Bell, emphasized that it is much easier for a serviceman to call home than for his family to try and reach him in Vietnam.

"That is why servicemen are being encouraged to notify their families in advance if they expect to telephone home, particularly around the holidays," Ward said.

\$121,000 Yearly Saving

The Bell System has announced plans for station-to-station calling between the U. S. and Vietnam, which will save Americans an estimated \$121,000 yearly on calls to that country. The rates went into effect this month.

Until a few years ago, all international long-distance calls were handled on a person-to-person basis, Ward explained.

More than 38,000 calls were completed between the U. S. and Vietnam last year, or 4½ times as many as in 1965, when the buildup of American forces in Vietnam began.

Place Calls in Vietnam
"Most of these calls were completed from the Vietnam end, rather than from the U. S., because of the difficulty in locating servicemen when calls

come in from the states," he noted.

It is more practical for servicemen to place calls home this year for two reasons, Ward pointed out.

"Travel restrictions and curfews imposed in Saigon have complicated the task of locating servicemen when calls are received in Saigon — although every effort is made, of course, to locate servicemen," he said.

"Thus, for this reason it is more practical for servicemen

to place calls when they are able to do so."

Station-to-station Rate
"Secondly, calls placed station-to-station are cheaper than person-to-person calls, and a serviceman is certainly in a better position to call station-to-station, as you could imagine."

The rate for the first three minutes on a station call would be \$9, as compared to \$12 for the first three minutes on a person-to-person call. Each ad-

ditional minute is \$3.

Ward said if a call is made to Vietnam, it is important for the caller to have the serviceman's unit, his APO number and, if possible, a telephone number where he can be reached.

The speed of handling a call to Vietnam depends on the volume of calls pending at a particular time, "as well as the availability of the serviceman on the Vietnam end," Ward said.

Calls originating in Vietnam are handled on a first-come, first-served basis at various telephone centers established in Vietnam for servicemen.

"When a serviceman does get to a phone, usually it is just a matter of minutes before his call is completed to the U. S.," Ward added.

Calls between the U. S. and Vietnam have been averaging about 140 a day. However, this figure is expected to increase during the holiday season.

14-Hour Time Difference
"Callers should keep in mind that Saigon is 14 hours ahead of Granite City time. That means noon here is 3 a.m. in

SP/4 James Messie Jr.

At Trabzon AFB, Turkey
SP/4 James S. Messie Jr., son of Mr. and Mrs. James S. Messie sr. of 126 Circle drive, Venice, has arrived for duty with a U. S. Air Force support unit at Trabzon Air Station, Turkey.

Sgt. Messie, a communications technician, has served in Vietnam. He is a 1967 graduate of Madison high school. The sergeant's wife, Alvina, is the daughter of Mrs. Vater McDowell of Pensacola, Fla.

Saigon," the local manager said.

The heavy concentration of so many troops in a small country at war has created some real communications problems," Ward commented.

"Although service is still not what we would like it to be, there have been improvements over the past several years."

Until 1967, servicemen could call home only from Saigon. Now, calls can be placed by servicemen from hospitals and bases in Ton Son Nhut, Long Binh, Cam Ranh Bay, Nha Trang and Oai Nhon.

Soon, calls also will be possible to the U. S. from Da Nang.

On the other hand, U. S. callers may still reach only telephones in Saigon and the immediate vicinity.

SP/4 Melson Completes OTI Course in Vietnam

John P. Melson, an 18-year-old Granite City, soldier, recently completed "on-the-job training" in bulldozer and rone plow operations in Vietnam and has been promoted to Specialist Fourth Class, his parents, Mr. and Mrs. John H. Melson, 2722 Saratoga avenue, learned last week.

SP/4 Melson attended Granite City high school and enlisted in the Army on Jan. 2, 1968. He underwent Basic and Leadership Training at Fort Leonard Wood, Mo., later receiving instruction at the Advance Infantry Training School for Mechanics from where he was graduated as private first class.

The serviceman was assigned to Vietnam on July 4 and since that time has been serving in the area of Tay Ninh, located northwest of Saigon near the Cambodian border. He is expected to remain in Vietnam until July.

SP/4 Melson informed his parents in a recent letter, the equipment he now operates is utilized to clear jungles and other obstacles in the Province of Tay Ninh.

His address appears in today's "Yule Mail Call."

FOOD BASKETS GIVEN AT GIRL SCOUT FESTIVAL
Approximately 180 Girl Scouts and leaders attended the 1968 "Festival of Giving" for Neighborhood Two Sunday evening at St. Joseph's Church.
The church basement was decorated in a Christmas theme for the event, and the troops were seated at individual tables, each containing a snowman surrounded with candy canes as a centerpiece. At each place setting were miniature snowmen made of marshmallows.
Cadette Troop 234, led by Mrs. Mary Pickenpaugh, opened the program with a flag ceremony. Each girl placed a hand-made ornament on a large tree from Camp Torque as Mrs. Doris Berna played "Jingle Bells" on the piano.
Mrs. Doris Wood, chairman, introduced special guests, including Mrs. Doris Votaw, district chairman, who gave the welcome address and commended the scouts on living up to the constitution. She informed them that the neighborhood has doubled in registered scouts since last year.
Dr. Leo Coleman and Don Menke performed feats of magic.
Mrs. Lorraine Parkinson, a representative of the Catholic Charities, accepted 14 decorated holiday baskets that the scouts had filled for the needy. She thanked all the troops participating.
"Special recognition was given to Bennie Minzes, who repaired and painted a large number of toys, and to Mrs. Patricia Rigney, leader of Troop 104, who made clothes for 30 dolls which were also donated to the charitable organization.
Hops, potato chips, home-made cookies and punch were served. Cadettes sang presided over the punch bowl.
Christmas carols were sung as the program came to a close, and the girls clasped hands in a "friendship circle" and sang "Taps" in unison.
Santa Claus presented each with a box of candy as she departed for home. The treats were provided by Mesdames Minzes, Ann Rieper, Anne Vagstad, Florence Burns, and Mrs. Verna Cochran, Rigney and Wood.

Delinquent Tax Sale Under Way In County

The annual delinquent tax sale of Madison county property was under way this week in the courthouses at Edwardsville and was scheduled to be completed today.
About 4500 parcels of property were offered to bidders, according to John Maeras, county treasurer. The county will purchase real not sold to other bidders through Paul Meyer, county agent.
Owners will have two years to reclaim their property, after which the purchaser may keep or dispose of it.

Driver Exposes Person To Two Girls Monday

A heavy set motorist who appeared to be in his 30's exposed his person to two girls Monday afternoon at the Belleme Village shopping center.
While sitting in his auto, he asked the girls for the location of St. Elizabeth Hospital. The girls, who ran, told points he was in a light blue 1965 auto and was wearing sun glasses. Clothing which appeared to be Army uniforms were on the seat beside him, they said.

Mrs. Reimers attended the festival with her husband. The scouts trimmed a Christmas tree from Camp Torque near Edwardsville, with ornaments which they had made at their meetings. Included were "spunkies," mobiles, bells, angels, Santas and holly wreaths.
Troop 709 gave a choral reading, "Holy Child, Peace on Earth and Goodwill to All Men." Christmas carols were led by Mrs. Judy Stille, and Ed Everett provided piano music. Cadettes of Troop 21 greeted the guests and presented them with programs and song sheets.

LAKE SCHOOL GIRL SCOUTS HONORED
Sixty-five parents and guests attended a combination of troop activities, including a "fly-up" and a Christmas ceremony, a Cadette bridging and a court of awards for Lake Junior Girl Scout Troop 536, led by Mrs. Delores Riddle and Misses Vicki Yetter and Carol Willison, Monday evening.
The program opened with a flag ceremony conducted by Sharon and Cathy Dean, Susan Gifford, Lana Krismannich, Tamara Moser and Joyce Rushing. A trefoil candleboard was used and the girls repeated the laws of scouting as the candles, one for each of the ten laws, was lighted.
Miss Willison presented "fly-up" wings to Rosemary Dulka, Susan Gifford and Susan Gifford as they gave their reasons for wanting to join scouting. Miss Yetter invested Sharon Dean, Pat Dukes, Janet Hill, Rebecca Morse, Vicki Pruet, Debbie Rushing, Jane Scaggs, Vanessa Vasiloff and Sharon White into the junior level and presented them with pins as they recited the promise and laws.
Mrs. Riddle led the bridging from junior scout rank into a sister Cadette troop for Debbie Hand, who was welcomed by Mrs. Denise Schmitz and presented a cookie patch.
During a court of awards, the following earned badges: Tamara Moser, three; Shirley Lemm, two; Debbie Hand, four; Cindy Snider, five; Debra Harvey, 12.
Patrol leader cords were presented to Lana Hanson, Pat Dukes and Cathy Dean.
Membership stars were given to junior scouts Debra Hand, Cindy Snider, Rhonda Hamilton, Alice Hicks, Tamara Moser and Donna Waltemate, and Brownies Susan Theis, Debbie Ramsey, Renee White, Christy Miller, Melinda Stevens, Rosemary Dulka, Candy Wallace, Sharon White, Brenda Jones, Susan Gifford, Judy McKee, Susan Gifford, Lana Krismannich and Joyce Rushing.
Special guests were Mrs. Schmitz and Mrs. Joan Yetter. Decorated Christmas cupcakes and punch were served following the closing ceremony.

350 AT NEIGHBORHOOD THREE YULE FESTIVAL
The Girl Scout Neighborhood Three "Festival of Giving" attracted over 400 in scouting families and guests Sunday afternoon at St. John's United Church of Christ.
The program opened with a flag ceremony conducted by Junior Girl Scout Troop 709, led by Mrs. Vivian Davis, general chairman of the annual program.
The audience repeated the pledge of allegiance while the scouts recited the scout and brownie promises. All sang "America" and Becky Edwards gave a reading, "A Tribute to Old Glory."

Rev. Paul Surbey gave the invocation and Miss Becky Edwards gave the welcome address.
All the Brownie troops sang "Rudolph the Red Nosed Reindeer," and Junior Troop 709 presented a play, "The Smith Family and Santa Claus Workshop," featuring Mr. and Mrs. Claus and the elves on Christmas Eve. Miss Jackie Ross accompanied them at the piano, and the audience participated in singing "Frosty the Snowman." Group singing was conducted periodically during the program.
Junior Troop 275 entertained with a playlet, "Charlie Brown's Christmas," with Snoopy and the Red Baron. Junior Troop 29 performed "Santa's Noisy Christmas Eve," featuring a doll and jack-in-the-box.
A "Mice Meeting" was presented by members of Junior Troop 320. Brownie Troop 47 gave a narration and play, "The Night Before Christmas."
Mrs. Mary Lockhart, chairman, introduced Mrs. Doris Votaw, district chairman, who thanked the scouts for adhering to the scout law. "A Girl Scout is a friend to all."

Charles H. Reimers, a representative of the Protestant Welfare Association, accepted baskets donated by all the troops in the neighborhood. He thanked the girls and invited them to visit the office to better understand the importance of their individual and organizational contributions.

One girl from each troop went forward to stand by the troop basket during the presentation.

BROWNIES INVESTED
Webster Brownie Troop 899 met at the school Tuesday afternoon with the leaders, Mrs. Valara Schorheide and Mrs. Anita Moody, to invest two new members following a flag ceremony and reciting of the promise.
Carla Evans and Robin Beavins were invested by Mrs. Schorheide. Each was presented a world association pin.
The girls worked on favors for a Christmas party at the school next week. The parents are being invited to attend. A Yule project for the parents was completed and gifts wrapped.

A gift exchange was held and plans were made to visit each member's home to view the Yule trees and ornaments later this month. Refreshments will be served at the last home on the list.
A dessert luncheon was served by Mrs. Santagato and Mrs. Stotz to Mrs. Rita Ahlers, Mrs. Helen Bertacchi, Mrs. Margaret Breyer and Mrs. Olivia Kunemann.

Mobile Home Sales Center, Park Development Planned

Plans for establishment of a deluxe mobile homes sales center and development of an additional 90-acre tract of land as a mobile homes park were announced today by Holiday Mobile Home Parks of America, Inc. as the second phase of a program involving a total cost of about \$2 million.

Construction of the sales center is under way and is scheduled for completion within the next month, according to Walter Rozycki, vice-president and secretary of Holiday Home Parks. Development of the second home park area will start early next spring, Rozycki said.

Both developments adjoin the present Holiday Home Parks area on State Aid Route 35 about two miles east of Route 111, which covers about ten acres and now accommodates 70 deluxe style mobile homes. The sales center will front along State Aid Route 35 on a 200x300-foot tract of land situated east of the present entrance roadway to the park area.

Office Building Planned

Rozycki said permanent office quarters are to be constructed on the tract which will "become a blaze of light at night" with a \$25,000 lighting system that is planned for installation. About 20 deluxe style mobile homes of different models will be placed on display at the sales center.

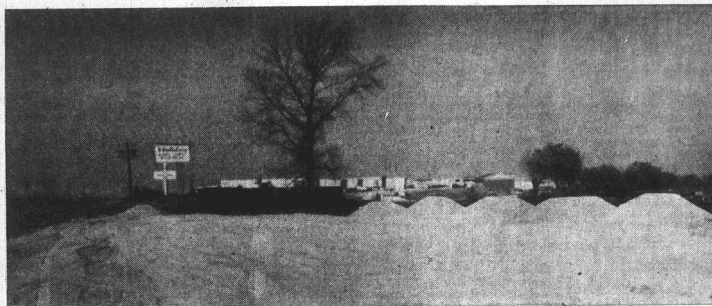

The tract of land along which the sales center will front the

highway formerly was a low-lying marshland and was created as usable land by a unique method permitting the developers to kill two birds with one stone.

A 30-acre lake that divides the currently developed section of the mobile home parks and the 90-acre tract on which new development is planned is being dredged to increase its depth and permit installation of a water recreation area.

The dirt dredged from the bottom of the lake was dumped through hundreds of feet of pipe into the roadway frontage area to build up solid land to a grade even with that of the highway. A similar buildup of land along the highway will continue, Rozycki said. Dredging operations were to be discontinued this week because of cold weather and the formation of ice on the lake. Rozycki said the lake has now been deepened to 35 feet in areas where the dredging has been completed.

GRADING AND ROCKING of site for new deluxe mobile home sales center is under way on tract adjoining Holiday Mobile Home Parks of America, Inc. on State Aid Route 35 two miles east of Route

111. Sales Center will have 300 feet frontage along highway, shown at far left, will include \$25,000 lighting system.

First phase of the Holiday Home Parks development got under way more than a year ago on the ten-acre section now occupied by mobile homes. A complete water distribution system, fed from a 200-foot-deep well through a filtering and softening system in a recently

completed pump house was built with sufficient capacity to serve the 50-acre tract on the east side of the lake when it is developed.

An underground sewage system has been completed for the entire area, with disposal into a lagoon. All utilities, including telephone and power cables, are underground.

Rozycki said that when complete, the mobile home parks will accommodate up to 1500 units, making it one of the largest "country club" style mobile home areas in the country and "most certainly the largest in the Midwest."

Holiday Mobile Home Parks of America is operated by a corporation made up of Sam Rousch of Venice as president, Rozycki, operator of Rozycki Realty Co., as vice-president and secretary, and Harry Odum as treasurer.
